

CALM MG

Liquid magnesium providing relaxation

- Its formula includes three highly bioavailable magnesium sources: magnesium citrate, magnesium aspartate and magnesium chloride.
- Magnesium can induce relaxation and calmness, which are fundamental for young horses approaching a competitive career.

DESCRIPTION

Calm MG is the highly bioavailable magnesium-based liquid complementary feed. Magnesium can induce relaxation and calmness, which are fundamental for young horses approaching a competitive career. Therefore, Calm MG can increase young horses' serenity and improve the affinity between rider and horse during competitions.

COMPOSITION

Components: Demineralised osmotized water; Magnesium salts of organic acids (Magnesium aspartate); Magnesium salts of organic acids (Magnesium citrate); Magnesium chloride; Glycerine, crude; (Sugar) beet molasses; Sucrose.

Analytical constituents (in % on product as is): Moisture 72; Crude protein 0,65; Crude ash 5,8; Crude fibre 0; Crude fat 0; Magnesium 3,2; Sodium 0.

Additives (all expressed in mg/ kg of product as is): Preservatives : E 202 Potassium sorbate 1.000. Emulsifying and stabilizing agents, thickeners and gelling agents: E 415 Xanthan Gum 1.000.

INSTRUCTIONS FOR USE

Properly mix 50-100 ml of Calm MG per day with the daily ration (a little disposable coffee cup's capacity is about 70 ml). Calm MG has a dense texture and is highly appetizing for

horses. Shake well before use. Give Calm MG preferably to young sporthorses and to horses that are afraid of show environments.
