

COMFORT WRAP PLUS

Anti-fatigue and anti-inflammatory zinc oxide- and *Arnica montana*-based bandage

- Enriched with some important phytotherapy extracts providing an anti-inflammatory and painkilling effect
- Rich in elements having an anti-fatigue, emollient and lymphatic drainage action on limbs
- Recommended after intense efforts or in case of trauma, swelling, edemas and windgalls.

DESCRIPTION

Product for external use only

Comfort Wrap Plus is the zinc oxide-based bandage rich in elements having an anti-fatigue, emollient and lymphatic drainage action on limbs.

Comfort Wrap Plus is also enriched with some important phytotherapy extracts providing an anti-inflammatory and painkilling effect. It contains menthol, which guarantees a pleasant sensation of freshness, while zinc also has a healing effect on limb wounds and abrasions.

COMPOSITION

Constituents: glycerol, zinc oxide, menthol, glycolic, extract of *Arnica montana*.

INSTRUCTIONS FOR USE

Instructions for use: Bind the horse's leg from the fetlock to the knee and shape the product with your hands to ensure better adherence to the bandage. Refrigerate Comfort Wrap Plus and use them cold to increase the refreshing effect.

Each pack contains a 10 cm x 10 m bandage. A single Comfort Wrap Plus, if it is cut in half (after about 5 meters), will be enough to bandage two legs.
