

COMPLETE VITAMIN

Mix of vitamins for the overall well-being of the body

- Thanks to folic acid and vitamin B12, Complete Vitamin is the perfect product to stimulate appetite in horses occasionally lacking appetite and increase the production of red blood cells in case of anaemia.
- The perfect product to provide horses with the vitamins and trace elements they need.
- It has a beneficial effect on the body: the horse will look healthier and its coat shinier.

DESCRIPTION

Complete Vitamin is the liquid vitamin complex providing horses with all the 12 vitamins known. It contains both water-soluble and fat-soluble vitamins and, in particular, a high concentration of vitamin B12. Cyanocobalamin (vitamin B12) is the most deficient vitamin in horses' diets, for it is almost completely absent in food of plant origin. It is the most chemically complex and rare vitamin of all. Complete Vitamin also contains seven mineral trace elements (Fe, I, Co, Cu, Mn, Zn, Se), all approved by the European legislation in force, and provides, in particular, a great amount of iron and folic acid. Thanks to these substances, Complete Vitamin is particularly suitable for horses with anaemia or low levels of red blood cells. Moreover, it can have a restorative effect on the body and increase voluntary consumption of food, especially in debilitated or old horses with vitamin deficiency due to an imbalanced diet.

COMPOSITION

Components: Demineralised osmotized water; Sucrose; Potassium salts of organic acids (potassium sorbate).

Analytical constituents (in % on product as is): Moisture 86; Crude protein 1; Crude ash 2.6; Crude fibre 0; Crude fat 1.8; Sodium 0.

Additives (all expressed in mg/ kg of product as is): Vitamins and Provitamins: 3a671 Vitamin D3 100,000 U.I. (simultaneous administration of vitamin D3 and vitamin D2 is forbidden); Vitamina B2 1,600; Vitamina B12 50. Vitamins and provitamins and chemically well-defined substances having similar effect: 3a831 Vitamin B6 1,450; 3a700 Vitamin E 13,500; 3a672a Vitamin A 1,000,000 U.I.; 3a820 Vitamin B1 1,950; 3a842 D-Panthenol 4,900; 3a316 Folic acid 1,500; 3a300 Vitamin C 2,950; 3a880 Biotin 20; 3a314 Niacin 5,000. Compound of trace

elements: 3b801 Selenium (sodium selenite) 10; 3b105 Iron (Iron(II) fumarate) 7,500; 3b405 Copper (Copper(II) sulphate pentahydrate) 750; 3b201 Iodine (Potassium iodide) 10; 3b301 Cobalt (Cobalt(II) acetate tetrahydrate) 40; 3b605 Zinc (Zinc sulfate monohydrate) 3,900; 3b503 Manganous (Manganous sulfate monohydrate) 2,100. Emulsifying and stabilizing agents, thickeners and gelling agents: E415 Xanthan Gum 2,000; E484 Glycerol polyethyleneglycol ricinoleate 2,500. E321 BHT 140.

INSTRUCTIONS FOR USE

Use 5 cl (=50 ml) of Complete Vitamin per day (first graduation mark of the bottle measuring chamber) for at least 30 consecutive days.

Directions for use

All horses

5 cl per
day

SIZE

- 1.5 l (bottle with measuring chamber)
- 5 l (Bag in Box)
