

ELYTE FAST

Liquid electrolytes for a quick and effective hydration

- The perfect product to rehydrate horses during competitions.
- With aspartates, which are highly rehydrating and energizing substances.
- Elyte Fast is particularly suitable for all horses that do not like a great amount of powder products added to their daily rations.
- Easy administration.

DESCRIPTION

Elyte Fast is the liquid complementary feed providing all electrolytes in a liquid form. It is the perfect solution for those wanting a ready-to-use, fast-hydrating product. Elyte Fast is the liquid complementary feed for horses intended for particular nutritional purposes: Compensation of electrolyte loss in the cases of heavy sweating

COMPOSITION

Components: Demineralized water; Glycerol; Sodium chloride; Potassium salts of organic acids (Potassium aspartate); Magnesium salts of organic acids (Magnesium aspartate); Potassium chloride; (sugar) Beet molasses; Sucrose; Magnesium citrates.
