

Fibre Mash

Fibre Mash

Suitable for senior horses
Easy-to-digest • High in fibre

FIBRE MASH

Fibre Mash is a fibre-rich mash specially developed for old horses with dental problems. It contains ingredients such as Timothy grass, dried chicory pulp (naturally rich in inulin), flaked peas, soya flakes and carrot pieces. This mash is characterised by a high fibre content and a composition with quality nutrients to optimise muscle mass. This feed has to be soaked (15 min.)!

This mix contains ingredients of the highest quality:

- **Timothy grass** is a very high quality roughage.
- **Chicory** naturally contains inulin. This polysaccharide promotes a good development of the intestinal flora and has a prebiotic effect.
- **Soya flakes** contain high-quality proteins (essential amino acids). Because they are cooked and crushed, they are easy and safe to digest.
- **Ground beet pulp** is naturally rich in digestive fibre and calcium.
- **Flaxseed** is a source of omega 3 fatty acids which greatly benefits the health of the horse.

INSTRUCTIONS:

Use **0.5 to 1 kg per 100 kg** bodyweight per day. Adjust according to the breed, the intensity of the effort and the quality of the roughage.

Always supplement concentrate feed with high quality roughage without restriction. The horse should always have access to fresh water.

Always store feed in a cool, dry and dark place.

SUMMARY :

Timothy grass, Dried chicory pulp, Dried sugar beet pulp, Wheat bran gravel, Lucerne, Linseed, Oat hulls, Corn germ mash, Sugar cane molasses, Pea flakes, Flaxseed hulls, Crude linseed oil, Toasted soya flakes, Carrot flakes, Rapeseed feed.

Analytical constituents :

Crude protein	11.8%
Crude fat	7.5%
Crude fibre	20.5%
Crude ash	8.3%
Sugar	5%
Calcium	1.13%
phosphor	0.61%
Sodium	0.07%
Magnesium	0.19%
Starch	6%

Calculated values (/kg) :

UFC/kg	0.77
DE-p (MJ/kg)	9.3
VRE horse	12
Ewpa	0.77

Nutritional additives (/kg) :

3a672a Vitamin A	5000 IU
3a671 Vitamin D3	1000 IU
3a700 Vitamin E (all-rac-alpha-tocopheryl acetate)	55 IU
Lysine	4 g
Methionine	1.4 g
Manganese	38 g
Copper	16 g
Iron	35 g
Zinc	38 g
Cobalt	0.3 g
Selenium	0.1 g
Iodine	0.3 g
